

Tushar Bhanderi

Surat, Gujarat

+91 9313067499 | tusharbhanderi1610@gmail.com | GitHub

Profile Summary

Highly-motivated employee with desire to take on new challenges. Strong work ethic, adaptability, and exceptional interpersonal skills. Adept at working effectively unsupervised and quickly mastering new skills.

Technical Skills

Programming Languages:

JavaScript (ES6+), Python, HTML5, CSS3

Frontend Technologies:

React.js, React Router, Redux Toolkit, Tailwind CSS, Bootstrap

Backend Technologies:

Node.js, Express.js, Flask, REST APIs

Databases:

MongoDB, MySQL

Tools & Platforms:

Git, GitHub, VS Code, Postman, MongoDB Compass, Netlify, Vercel, MS Office

Key Expertise

MERN StackDevelopment

Agile Development

MongoDB & Express.js

Tailwind CSS & Responsive Design

Database Management

Critical Thinking

SQL Programming

Data Analysis

Project Managment

Projects

Share-A-Plate – Food Donation App (06/2024 – 12/2024)

- Designed and developed an app connecting NGOs and volunteers for food redistribution.
- Implemented backend logic using Python and Firebase.
- Integrated basic analytics for tracking donation frequency.

Quiz App (12/2024 – 03/225)

- Developed a quiz platform with dynamic question generation.
- Used Python and Flask; stored data using SQL.
- Collected usage data for basic analytics and reporting.

BrainQuest – Kids Learning Game Platform (02/2026 – 06/2026)

- Developed an interactive educational web application using React.js, Node.js, Express.js, and MongoDB.
- Implemented quizzes, puzzles, drawing activities, XP rewards, badges, and level progression systems.
- Integrated JWT authentication and REST APIs for secure user management..
- Built a responsive UI and optimized application performance for a seamless user experience.

Netflix Data Analysis Project (By Unified)

- Processed and analyzed 5,000+ records to identify content distribution trends by genre, country, and release year.
- Applied data preprocessing and visualization techniques using Python libraries.
- Delivered insights through visual storytelling and structured reporting.

Experience

SOZANCE | IT Product & Services

[Junior Web Developer | 19 Jan 2026 – Present]

- Developed responsive user interfaces using React.js.
- Implemented reusable components to improve code maintainability.
- Enhanced application performance and user experience.
- Worked on frontend development, API integration, and state management.
- Gained practical experience in building scalable web applications.

UNIFIED MENTOR PVT LTD

[Data Science Intern | 22 Nov 2025 – 22 Feb 2026]

- Completed a 3-month Data Science internship working on real-world projects.
- Performed data cleaning, exploratory data analysis (EDA), and data visualization.
- Built machine learning models for predictive analytics.
- Worked with Python libraries including Pandas and NumPy.
- Developed predictive models such as customer satisfaction prediction and stock price forecasting.

Deccan AI – Collection Contributor

[Freelance Contract]

- Assisted in data validation and quality assurance processes.
- Supported AI model development through structured data acquisition and preparation.
- Collaborated with project teams to meet data collection objectives and project deadlines.

Education

Parul Institute of Technology

B. Tech CSE

July 2022 – April 2026

Vadodara, Gujarat

Ashadeep iit

Higher Secondary Certificate

June 2020 – March 2022

Surat, Gujarat

Noble public school

Senior Secondary Certificate

June 2019 – March 2020

Surat, Gujarat

Activities and honors

I actively explore and apply AI to solve real-world problems, automate tasks, and boost productivity. This reflects my ability to adapt to new technologies and balance innovation with everyday responsibilities.

Achievements

Analyze BigQuery Data in Connected Sheets (Google Cloud Skill Badge)

Hands-on experience analyzing datasets using BigQuery and Connected Sheets on Google Cloud.

Computer Network (NPTL)

Computer networks allow devices to communicate with each other.

Theory Of Computation (NPTL)

Theory of computation for understanding what can be computed.
